

Did you get the most recent "hit piece" from an unidentified sender?
Interesting, that "hit piece" uses John Martin's Postage Permit No. 510. Why are Lynn Canton and her *Save The Arena Group* and the RROPA boys Russ Garcia & Byron Meyer using Martin's permit? We know Canton admitted to working for him but **wasn't RROPA supposed to be independent?**

What's up with that? Who's paying for all this? and why?
